SKILLS

Languages:	C++, Python, C, JavaScript
Tools/Platforms:	MongoDB, PostgreSQL, Git, Docker, Github
FrameWork:	ReactJs, FastAPI, Docker
Soft Skills:	Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

Spend Recorder Github <i>Python, JavaScript, FastApi, ReactJs, PostgreSQL</i>	Nov' 25
- Developed a comprehensive expense management application to help users track and manage their financial transactions efficiently. - Implemented user authentication and group expense management, allowing users to organize, add, edit, and manage shared expenses securely. - Designed RESTful APIs and a responsive user interface with a scalable architecture for efficient financial record management.	
Complete Hotel Management System Github <i>JavaScript, EJS, Html, CSS</i>	Jun' 24
- A full-stack accommodation listing platform where users can create, view, update, and delete property listings with images and location details. - Built secure user authentication and authorization, ensuring only authenticated users and listing owners can manage their properties. - Interactive location mapping, image uploads, and user reviews, providing a complete and user-friendly property discovery experience.	
Todo Github <i>Python, JavaScript, ReactJs</i>	Apr' 23
- Created a user-friendly Todo application that allows users to organize and manage their daily tasks efficiently. - Enabled secure user signup and login functionality to provide personalized task management for each user. - Provided complete task management features, including adding, editing, marking tasks as complete, and deleting tasks.	

TRAINING

Cipher Schools (Edtech Company)	Jun' 23 – Jul' 23
Data Science using Python	
- Performed Exploratory Data Analysis using NumPy and Pandas, leading to a 20% reduction in data preprocessing time. - Developed, trained, and evaluated various Machine Learning models, including Linear Regression, KNN, SVM, Decision Trees, K-Means, and Ensemble Methods using Scikit-learn, achieving an average accuracy improvement of 15%. - Employed feature engineering techniques to enhance model performance by 25% for predictive analysis.	

CERTIFICATES

Python Udemy	May' 25
JavaScript Udemy	Apr' 24
C NeoColab	Mar' 25
SQL CodeTantra	Mar' 26

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology	Aug' 25 – Present
Computer Science and Engineering; CGPA: 6.24	
Bharti Vidya Niketan Public School	New Delhi, Delhi
Intermediate	Mar' 24 – May' 25
PCM;	
Diksha International School	Bhagalpur, Bihar
Matriculation	Mar' 22 – May' 23
